What is Project T.E.A.R.?

Project T.E.A.R. is a preventative early intervention tool designed to educate youth about the complex subject matter surrounding domestic violence. It equips youth with the knowledge and resources to not only reach out for help, but to make positive and healthy relationship choices.

This is achieved through a 60 – 90 minute PowerPoint presentation containing several music videos and media clips. They illustrate the different dimensions of domestic violence and its effects on individuals, the family and the community.

Intended to end violence, T.E.A.R.'s pivotal youth lectures help teenagers increase awareness of relationship violence and its warning signs. A preventative and responsive program promoting healthy relationships, it embraces a 'zero tolerance' stance against domestic/youth relationship violence.

T.E.A.R. promotes communication, breaks the 'cycle of violence' and informs youth on the community resources that are available to them. Lectures also provide a safe forum to recognize they are not alone, disclose abuse, or prevent silence when confronted by, or witnessing violence among their peers.

T.E.A.R. addresses domestic/youth relationship violence as a prevalent and preventable crime that effects the entire community, and encourages youth to break the silence by becoming proactive in their communities.

T.E.A.R. positively impacts the lives of our future leaders, unites our youth, and inspires them to make a difference!
